

Double Ended Bike Locker

The Double Ended Bike Locker is the perfect way of storing two bikes securely in a discreet manner. Designed as a space saving bike storage unit, our Double Ended Bike Locker is ideal for areas where space is restricted but bike security is important.

This design allows access from both ends with secure locks on both doors. The inside of the bike locker is divided diagonally creating two separate spaces for the two bicycles. The dividing panel allows each bike to be locked securely.

Technical Specification

- Space-saving cycle locker stores 2 bicycles.
- Internal partition allows for independent access to each bicycle.
