

PRODUCT BROCHURE

571mm x 531mm x 135mm | Weight: 7.5kg

The Lovehoop is a fun and romantic version of our Cyclehoop design. This product converts existing signposts into secure cycle stands for 2 bicycles and prevents thieves from lifting locked bikes over. The Lovehoop is made from mild steel and is powder coated in a rich red.

Features

- Reduces risk of theft
- Easy to install
- Neoprene lining protects column paintwork
- Lining helps to electrically isolate the Lovehoop from the post column
- Prevents bikes from falling over
- People who cycle can secure their bike using a D-lock instead of a chain
- Compact design
