

Folding Bike Locker

Minimum order of 5 locker stacks.

Portable and practical, the folding bike is incredibly popular with commuters, allowing them to transport them easily to and from work.

Our Folding Bike Lockers are specially designed around the typical size of a Brompton bicycle and each compartment is sized 633mm (H) x 320mm (W) x 625mm (D).

This product is made from mild steel and available powder coated in a choice of colours. Each locker is three compartments high and designed to be bolted together to create a larger unit.
